DETAILED ACTION

1. This Office Action is made in response to applicant's Appeal Brief filed on 6/13/2009. Claims 1-6, 8-37, and, 39-65 are currently pending in the application. An action follows below:

Allowable Subject Matter

2. Claims 1-6, 8-37, and 39-65 are allowed.

The following is an examiner's statement of reasons for allowance:

The present invention is directed to a device and method of providing input to an electronic display and computer system. The claims are found allowable in light of the additional arguments filed by the applicant as part of the Appeal Brief. Each independent claim identifies the uniquely distinct features regarding the use of a spatiotemporal input data structure linking each of the capture times to the computed two-dimensional coordinates of the input target in each of the contemporaneously acquired images and acquiring images of the interactive space from a field of view directed toward the interactive space along an optical axis intersecting a central area of the display location. The closest prior art, Mack (USPN: 6,198,485), Kumar et al. (USPN: 6,204,852), and Pryor et al. (USPN: 7,042,440) disclose methods of capturing images of an interactive space for providing input to a computer system, either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2629

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
